SUBASH Y

Electronics and Communication Engineering

Subash Y-Portfolio | subash yuvaraj | subash-y

SKILLS

Technical Skills

- Programming Languages: C, Python
- Web Technologies: HTML, CSS, JavaScript, React
- Backend Development: Node.js, PHP
- Operating Systems: Linux, Windows
- Development Tool: Git, Makefile

SOFT SKILLS

- Good Communication
- Time-Conscious
- Teamwork and easily adaptable

AREA OF INTEREST

- Full Stack Development
- Software Engineering
- Cybersecurity

CONTACT ME

9786333903

subashyuvaraj495@gmail.com

15/32, Muthuswamy aasari lane near sungam, Irugur, cbe-641103.

OBJECTIVE

Seeking a position in a company where I can launch my career and build a valuable skill set.

EDUCATION

Dr.N.G.P.Institute of Technology
2021-2025
CGPA 7.93

Trinity Matrciulation Higher Secondary School
2021 - 89.67%

K.M.M.Matriculation School
2019 - 85.4%

PROJECTS

- Smart Fire Alarm System -2024

  "Implemented an image processing algorithm (Haar Cascade Classifier) for fire detection, analyzing video frames to identify flame patterns and trigger alerts, enhancing early fire detection capabilities for improved safety measures."

- CNN-Based Detection and Classification of Lung and Colon Cancer in Histopathological Images – 2025

  "Developed a deep learning-based lung cancer detection system using ResNet50 and DenseNet121, classifying histopathological images with high accuracy and integrating a MATLAB GUI for real-time diagnostic support.

- YouTube Clone Website - 2025

  Developed a responsive YouTube-style frontend interface using semantic HTML5 and modular CSS. Built a dynamic video grid with reusable video cards using CSS Grid and Flexbox. Implemented interactive UI elements including search controls, tooltips, notification counters, and hover effects. Ensured consistent UI design using Google Fonts (Roboto) and component-based styling.

- QRCode Generator - 2025

  Developed a QR Code generator in PHP using the chillerlan/php-qrcode library with Composer-based structure. Implemented server-side validation and the Post-Redirect-Get (PRG) pattern for clean request handling. Used secure session management for user messages and QR output. Configured custom scaling and GD rendering while integrating third-party packages.

- Rock Paper Scissor - 2025

  Developed an interactive Rock–Paper–Scissors web app using HTML, CSS, and JavaScript with game logic for move comparison and randomized computer selection. Implemented real-time score tracking using DOM manipulation and event-driven user interactions. Enhanced UI with a Three.js animated background and cursor-responsive visuals. Added autoplay and reset features to manage gameplay state.

- Buffer Overflow Demonstration in C

  Developed a C program demonstrating a stack buffer overflow vulnerability caused by improper bounds checking. Used unsafe input functions (gets, unchecked scanf) to illustrate how unvalidated input can overwrite memory and affect execution flow. Analyzed stack behavior and function calls in a controlled environment. Strengthened understanding of secure coding practices and input validation in C.

CO-CURRICULARS

- Completed the Revature Pre-Training Program in Python Essentials with Foundations in Data - 2025
- Completed Summer Internship in Vasantha advanced systems - 2024
- Successfully Completed NPTEL - Problem Solving Through Programming in C - 2023
- Attended National Workshop on Industrial Internet of Things -2023
- Completed Value Added Course on IoT Application Design Using LoRaWAN Technology - 2023
- Attended Workshop on Drone Technology - 2023
- Hands-On-Training in prototype PCB designing & Assembling SUNSHIV Electronic Solutions - 2023
- MATLAB On Ramp - 2022
- Attended NCAT (National Creativity Aptitude Test) Examination - 2022

EXTRACURRICULAR

- NSS Volunteer - 2021
- Initiated student outreach program for school students regarding social media - 2022
- Participated in Rotary Texcity YUVA INDIA - 2022
- Participated in Youth Leadership Summit 2023 – Coimbatore
- Won First prize in Volleyball on 15th Annual Sports Day celebration - 2023
