

SKILLS

Technical Skills

- Programming Languages: C, Python
- Web Technologies: HTML, CSS, JavaScript, React
- Backend Development: PHP, Node.js
- Database: MySQL, MongoDB
- Api & Web: REST APIs, JSON, API Integration
- Operating Systems: Linux, Windows
- Development Tool: Git, Makefile

SOFT SKILLS

- Good Communication
- Time-Conscious
- Teamwork and easily adaptable

AREA OF INTEREST

- Full Stack Development
- Software Engineering
- Cybersecurity

[subash-y](#)

➤ OBJECTIVE

Seeking a position in a company where I can launch my career and build a valuable skill set.

➤ EDUCATION

B.E. Electronics and Communication Engineering
Dr.N.G.P. Institute of Technology
2021-2025
CGPA 7.93

Higher Secondary Certificate
Trinity Matriculation Higher Secondary School
2021 - 89.67%

Secondary School Leaving Certificate
K.M.M. Matriculation School
2019 - 85.4%

➤ PROJECTS

- E-Cart - E-Commerce Product Catalog - 2026

Developed a PHP and MySQL-based e-commerce product catalog with product search, category and price filtering. Built an admin panel with CRUD operations for product management. Implemented authentication, session management, and CSRF protection. Added server-side input validation and database-driven functionality for secure and efficient product management.

- QRCode Generator - 2025

Developed a web-based QR Code Generator using PHP and the chillerlan/php-qrcode library with Composer-based dependency management. Implemented server-side validation, Post-Redirect-Get (PRG) request handling, secure session-based messaging, and GD-based QR rendering with custom scaling. Added customizable QR size, theme, and foreground/background colors for flexible QR code generation.

- YouTube Clone Website - 2025

Developed a responsive YouTube-style frontend using semantic HTML5 and modular CSS. Implemented a dynamic video grid with reusable video cards using CSS Grid and Flexbox, along with interactive search, tooltips, notification counters, and hover effects.

- Rock Paper Scissor - 2025

Developed an interactive Rock-Paper-Scissors web app using HTML, CSS, and JavaScript with randomized game logic and real-time score tracking. Enhanced the UI with a Three.js animated background and cursor-responsive effects, along with autoplay and reset features.

- CNN-Based Detection and Classification of Lung and Colon Cancer in Histopathological Images – 2025

Developed a deep learning-based lung cancer detection system using ResNet50 and DenseNet121, classifying histopathological images with high accuracy and integrating a MATLAB GUI for real-time diagnostic support.

- Smart Fire Alarm System -2024

Implemented an image processing algorithm (Haar Cascade Classifier) for fire detection, analyzing video frames to identify flame patterns and trigger alerts, enhancing early fire detection capabilities for improved safety measures.

- Buffer Overflow Demonstration in C - 2026

Developed a C program demonstrating a stack buffer overflow vulnerability caused by improper bounds checking. Used unsafe input functions (gets, unchecked scanf) to illustrate how unvalidated input can overwrite memory and affect execution flow. Analyzed stack behavior and function calls in a controlled environment. Strengthened understanding of secure coding practices and input validation in C.

➤ CO-CURRICULARS

- Completed the Revature Pre-Training Program in Python Essentials with Foundations in Data - 2025
- Completed Summer Internship in Vasantha advanced systems - 2024
- Successfully Completed NPTEL - Problem Solving Through Programming in C - 2023
- Attended National Workshop on Industrial Internet of Things -2023
- Completed Value Added Course on IoT Application Design Using LoRaWAN Technology - 2023
- Attended Workshop on Drone Technology - 2023
- Hands-On-Training in prototype PCB designing & Assembling SUNSHIV Electronic Solutions - 2023
- MATLAB On Ramp - 2022
- Attended NCAT (National Creativity Aptitude Test) Examination - 2022

➤ EXTRACURRICULAR

- NSS Volunteer - 2021
- Initiated student outreach program for school students regarding social media - 2022
- Participated in Rotary Texcity YUVA INDIA - 2022
- Participated in Youth Leadership Summit 2023 – Coimbatore
- Won First prize in Volleyball on 15th Annual Sports Day celebration - 2023
